

AI Visibility Audit

Comprehensive Analysis & Strategic Roadmap

ADMIN VIEW

April 14, 2026

Executive Summary

We analyzed Stack 'Em across 10 high-intent AI prompts on ChatGPT and Google AI for Two Can Spring Loader nationwide. The audit yielded an overall visibility score of 10/100, with 20%

⚠️ Primary Issue Detected

AI models lack sufficient data about your brand. When users ask recommendation queries, AI cannot find structured comparisons to validate your authority, defaulting to competitors who have this content.

OVERALL VISIBILITY SCORE

10/100
